SCORE CHOICE/TEST OPTIONAL SECTION:

Unless indicated below, Charter Arts reports all standardized test score performance on a student's official transcript. This practice facilitates reducing a student's financial obligation to report scores from the testing agency (i.e. the College Board or ACT Student) directly to colleges and universities which accept the receipt of scores on an official transcript as official score reports. Students and their parent/guardian(s) can choose to remove standardized test score(s) from their official transcript by completing the section below. In the event that one removes test scores from their transcript, you are assuming responsibility for reporting scores to any and all colleges which require standardized test scores as per their admissions criteria. (check/initial next to each test score that is to be removed, permanently)
