

Good morning, Charter Arts,

Thank you all for your patience this morning as we continue to work through some technology issues pertaining to a global Google outage that affected Gmail, Hangouts, Classroom, and a number of other GSuite services. At this time, we are aware that services have been restored. However, Google is reporting that they are still investigating the outage and disruptions may continue to occur.

Classes will operate on a two hour delay schedule today, Monday, December 14, 2020, and the schedule has been posted, for your convenience on Grade Level Google Classrooms, which are now working. Schedule information can also be accessed on page 62 of the Student Handbook, which is under the students tab on our school website.

Should you have trouble accessing your classes or any Google services, please contact our Main Office at 610-868-2971 or send an email directly to [attendance@charterarts.org](mailto:attendance@charterarts.org).

Thank you, and we apologize for any inconvenience this morning.
