

Algebra 2 CP 2021 Summer Work

Hello!

Included on this page is all of the information for your summer work for Algebra 2 CP next school year. All assignments and resources have been uploaded to a Google Classroom. The code has been listed below. Please join the Google Classroom using your Charter Arts student email account.

Google Classroom Code: [qvhmq3i](#)

If you don't have a Charter Arts student Gmail account yet, you can access the assignments using the links below. There are also resources available (notes/videos) that can be used to help with the work. If you would like access to these, please contact Mrs. Demyan (jdemyan@charterarts.org) or Mr. Hahn (mhahn@charterarts.org) and they can be shared with you.

Your summer work has been broken down into sections based on foundational topics that will be used in Algebra 2. Each section is approximately 10 questions so you can steadily progress through the work over the course of the summer.

Assignment Links:

- [Solving Equations](#)
- [Solving Inequalities](#)
- [Linear Equations](#)
- [Multiplying Polynomials](#)
- [Factoring](#)

If you have any questions or need anything, please feel free to email Mrs. Demyan or Mr. Hahn!

Have a great summer!
